RE: Michael Meyer: Contract Renewal Evaluation
10 Year Contract (2014-2024)

DATE: February 13, 2013

The Faculty Peer Review Committee for Michael Meyer has completed its careful assessment and discussion of the documentation provided for contract renewal. These materials were used to evaluate his overall performance as a faculty member in the School of Design and Production at UNCSA, in which he is an instructor in the area of Wig and Makeup Design, as well as the Director of the Wig and Makeup Program.

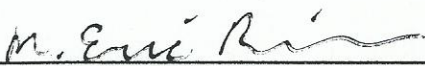

Upon review, we found this faculty member to have an impressive and imaginative portfolio, comprised of extensive professional theatre and film experience. Michael is gifted in his area of expertise and inventive with cutting-edge technologies in the entertainment industry, as well as educational medical research. His contributions in building and expanding his program are evident, including his international ambassadorship projects. His notable student outcomes and awards are a testament to his skill and commitment as a teacher of excellence. Student response to his presentations, projects, critiques and application of this information is overwhelmingly positive. He is a dedicated and well-respected colleague.

Considering his unquestionable commitment to the school, the students and his professional activities, the Peer Review Committee strongly recommends the offering of a 10 year contract to Michael Meyer, who continues to be a great asset to UNCSA.
